

Residential Sidewalk Replacement Program

The City of Wellington has a program to assist City residential property owners in replacing old and/or damaged sidewalks.

- The City will cost-share with a property owner and reimburse up to \$2.75 per sq. ft. for 50 linear feet or less of replaced sidewalk, up to a maximum of \$550.00 or \$2.25 per sq. ft. for up to 75 linear ft. with a maximum reimbursement of \$675.00.
- Property owner may perform the work or hire a Contractor. All new sidewalks must be constructed of concrete and to current City sidewalk standards and are subject to preliminary, pre-pour and final inspection. Property owners located on a corner will need to meet City established elevations in order to ensure ADA compliance for a curb ramp (ramp will be installed by the City of Wellington).
- The program ends when the City's program budget has been expended or allocated; therefore those interested should complete and return the program application as soon as possible for approval and inclusion in the program. An application must be on file with the City prior to sidewalk construction.
- Applications are available at the City Manager's Office, 317 South Washington, from 8:00 a.m. to 12:00 Noon and from 1:00 p.m. to 5:00 p.m. Monday through Friday.
