Randy Storrer began this golf tournament as a fundraiser to help provide financial assistance to school children in need within his community. Randy was passionate about helping children. In 1999, he organized his first benefit tournament while employed with the City of Winfield. Shortly after coming to the City of Wellington, he organized plans to begin an annual golf tournament to benefit the school children of this community. In 2003, with the hard work and direction of Randy, the City of Wellington Employees held the first annual tournament to benefit the 21<sup>st</sup> Century Learning Center. A few months after that tournament, Randy succumbed to cancer after a long hard fought battle. The City of Wellington employees decided to carry on Randy's dream of providing academic and enrichment opportunities for local youth through the Wellington After School Programs. In 2004, the tournament was renamed the Randy Storrer Memorial Golf Tournament. We hope that with your participation and donations, we can carry on Randy's dream.

As of July, 2008, grant monies are no longer available. The Program will now have to rely on fees & donations.
