

2017 HYDRANT TESTING SCHEDULE

The following is the schedule for the 2017 Fire Hydrant testing. The schedule will be followed as close as possible. At times, due to unforeseen circumstances, changes to the schedule will be necessary. Announcements for any changes will be made as soon as possible. **Hydrant testing will start on Sunday Sept.10th and will continue on weekdays only until all of the hydrants are tested.**

Crews will be trying to keep the water as clear as possible. Some “dirtying” of the water may occur in the area that is being tested. The possibility exists for adjacent areas to receive some of the “dirty” water also.
