

Micro Utility Trucks

"Micro Utility Truck" means any vehicle which is:

- Not less than 48 inches in width.
- Has a maximum length of 160 inches including the bumper
- More than 1,500 pounds unladen weight, including fuel and fluids.
- Can exceed 40 miles per hour as originally manufactured.
- Manufactured with a metal cab.
- **"Work-Site Utility Vehicle" is a different classification and is not included within the definition of a "Micro Utility Truck".**

Micro-utility trucks may be operated upon the public highways, streets, roads and alleys within the corporate limits of the city, except as follows:

- (1) No Micro-utility truck may be operated upon any public highway, street, road and alley with a posted speed limit in excess of 30 miles an hour
- (2) No Micro-utility truck shall be operated on any public highway, street, road or alley unless such truck complies with the equipment requirements under K.S.A. ch 8, art. 17, and amends thereto.

LIMITED STREET USE
